Summary

Software Developer with hands-on experience in Java, REST APIs, and full-stack Web and Android application development. Skilled in building scalable backend systems, database integration, and developing real-world application. Strong foundation in OOP, problem solving, and SDLC.

Education

- **Bachelor of Engineering — Computer Science and Engineering** Anuradha College of Engineering, Chikhli
CGPA: 7.56 Oct 2022 – May 2025
- **Diploma in Engineering — Information Technology** Government Polytechnic, Murtizapur
Percentage: 73.69 Aug 2020 – May 2022

Experience

- **Android App Developer Intern** Mountreach Solution Pvt Ltd
Amravati, Maharashtra 01/2022 – 03/2022
 - Developed a Smart College Management Android application with features like notices, attendance, and student, faculty management.
 - Designed optimized UI using XML and improved user experience.
 - Implemented REST APIs for attendance tracking and student data management
 - Collaborated in debugging, testing, and API integration within a team.

Personal Projects

- **DevPay — Banking Platform - [View](#)**
 - Developing a digital banking platform with a customer mobile app and admin web portal for authentication, account management, and transaction processing.
 - **Tech Stack:** Android (Java), REST APIs, HTML, CSS, GitHub
- **Smart Indian Rail Booking System - [View](#)**
 - Developed a full-stack railway booking system with role-based Admin and User modules, implementing CRUD operations for train management, user data, and booking processes.
 - **Tech Stack:** Java, JDBC, Servlets, JSP, Sql, Oracle Database, HTML, CSS
- **Smart College Management System (Android Mobile App)**
 - Developed a role-based Android application for managing notices, user accounts, and real-time location.
 - **Tech Stack:** Android (Java), XML, REST APIs, MySQL

Technical Skills

- **Frontend:** HTML, CSS, JavaScript, XML
- **Programming:** Java, SQL, PL/SQL
- **Backend:** JDBC, Servlets, JSP, Spring Boot, Spring Data JPA, Spring MVC, REST APIs, JSON, JWT, Debugging (Basic)
- **Tools:** Git, GitHub, Eclipse, VS-Code, SQL-PLUS, Android Studio, Postman, MySQL Workbench
- **Database:** Oracle Database, MySQL

Strengths

- Strong understanding of Array, String, OOP, Collections, Multithreading and Exception Handling
- Experience in implementing CRUD operations using Spring Data JPA and JDBC with efficient database integration
- Problem-solving, debugging, and version control using Git

Certificates

- Industrial Training Android Mobile App (08/2021– 09/2021)
- Internship Android Mobile App (02/2022– 04/2022)
- Java & Career Skills Workshop (20/2025)
